‘Getting Bi is one of the most important recent contributions to the global struggle for human rights.... this anthology serves as a magnificent tool for building support and respect for the sexual rights of each one of us.’

—Paula Ettelbrick, Executive Director of the International Gay and Lesbian Human Rights Commission

‘This groundbreaking book is the perfect read for bisexual, queer, curious, and questioning people; everyone from the newly out to long-time community leaders; and bi allies of all stripes’

— Matt Foreman, Executive Director of the National Gay and Lesbian Task Force (NGLTF).

This book is not a cheerleading manual for bisexual identity. While some of the authors fully embrace their bisexual labels, others have a more complicated and troubled relationship with the word. The point of the book is not about consensus, rather it is a forum in which people put forth their ideas.

—Robyn Ochs, editor
